

## Section 1 – IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name:	Circuit Reviver Aerosol 400ml
Product Code:	7174
Uses:	Oil Based Deoxidising & Carbon Removing Cleaner Aerosol
Company:	Chemz Limited
Address:	80 Rangitane Place
	Whakatu, Hastings
Telephone:	+64 6 877 9690
Email:	info@chemz.co.nz
Emergency Number 24 hr:	0800 764 766 (0800 POISON) National Poison Centre

#### Section 2 – HAZARDS IDENTIFICATION

#### **Classification of the product**

Considered a hazardous substance according to the Hazardous Substance (Minimum Degrees of Hazard) Regulations NZ. Classified as a dangerous goods for transport purposes.

2.1.2A

6.3A

6.4A

6.9B

9.1B

**HSNO Classifications:** 

Flammable aerosol

Irritating to the skin

Irritating to the eye

Harmful to human target organs or systems Narcotic

Ecotoxic in aquatic environment with long lasting effects

#### **GHS Classifications:**

Aerosol Category 1	
Skin irritation Category 2	
Eye irritation Category 2	
Specific target organ toxicity single exposure Category 3	

Hazardous to the aquatic environment	chronic Category 2
--------------------------------------	--------------------

Signal Words: Danger

#### **Hazard Statements**

- H222 Extremely flammable aerosol
- H229 Pressurised container: May burst if heated
- H315 May cause skin irritation
- H319 May cause serious eye irritation
- H336 May cause drowsiness or dizziness
- H411 Toxic to aquatic life with long lasting effects

#### Section 3 – COMPOSITION INFORMATION ON INGREDIENTS

Hazardous Ingredients	CAS No.	Proportion, % m/m
Isopropyl Alcohol	67-63-0	30 - 60
Isohexane	64742-49-0	30 - 60
Oleic Acid	112-80-1	< 10
Paraffinic Mineral Oil, Highly Refined	64742-62-7	< 10
LPG (butane, propane)	68476-85-7	10 - 30

#### Section 4 – FIRST AID MEASURES

If medical advice is needed, have product container or label at hand.

If exposed or if you feel unwell: Call a POISON CENTRE or doctor.

Ingestion:	Not considered a normal route of entry. IF SWALLOWED: Immediately call a POISON CENTRE or doctor. Do NOT induce vomiting. Where there is risk of vomiting, lean person forward or place on left side to avoid aspiration of product into lungs. Obtain immediate medical attention.
Eye contact:	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice.
Skin contact:	IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice.
Inhalation:	IF INHALED: If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTRE or doctor.
Notes to physician:	Treat symptomatically and supportively. No specific antidote.

## Section 5 – FIRE-FIGHTING MEASURES

General fire hazards:	Pressurised container, extremely flammable aerosol.
Specific hazards:	Containers can build up pressure if exposed to heat and/or fire and may explode. Vapours may form an explosive mixture with air. Vapours can travel to a source of ignition and flash back. Contents may float and be re-ignited on surface water.
Further advice:	On burning may emit toxic fumes including those of carbon monoxide and carbon dioxide. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion.
Extinguishing media:	Use water spray, fog, or foam. Use water spray to cool fire-exposed containers. Water may be ineffective. Do not discharge extinguishing waters into the aquatic environment. Do NOT use straight streams of water.
Protective equipment:	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.
Fire fighting instructions:	In the event of fire, cool containers with water spray to prevent vapour pressure build up. Move containers from fire area if you can do so without risk. Runoff can cause environmental damage.
Hazchem Code:	2YE

## Section 6 – ACCIDENTAL RELEASE MEASURES

Minor spills:	Spills may be extremely slippery. Clean up all spills immediately. Remove all sources of ignition. If safe to do, damaged cans should be placed in a container outdoors, away from all ignition sources, until pressure has dissipated. Undamaged cans should be gathered and stowed safely. Provide ventilation. Wash with water.
Major spills:	Evacuate the spill area. Call the Fire Brigade. Remove all sources of ignition. If safe to do so, prevent spillage from entering drains or water courses. If material enters drains, advise emergency services. Use absorbent (soil, sand or other inert material). Collect and seal in properly labeled containers for disposal.

#### Section 7 – HANDLING AND STORAGE

Handling Precautions:	Read product label before use. Keep out of reach of children.
	This product is highly flammable. Keep away from heat and open flames. Do not spray on an open flame or other ignition source. Pressurised container: Do not pierce or burn, even after use. No smoking. Beware: Deliberately sniffing or inhaling concentrated contents can be harmful or fatal.
	Use in a well-ventilated area. Avoid breathing spray. Wash hands with soap and water after handling.
Storage:	Protect from sunlight. Do not expose to temperatures exceeding 50 °C. Store in a well ventilated, cool, dry place. Keep away from heat, sparks, and flame. Store locked up.

#### Section 8 – EXPOSURE CONTROLS/PERSONAL PROTECTION

	Material	TWA, mg/m <sup>3</sup>	STEL, mg/m <sup>3</sup>
	Isopropyl alcohol	983	1,230
	Oil Mist, Mineral	5	10
	LPG (butane, propane)	1,800	-
Additional Information:	Wash hands before eating, drinking and smol	king.	
Engineering Controls:	No controls required when handling small qu	antities. Use with adequate ventilati	ion.
	Larger quantities: General exhaust is adequat should be designed to prevent accumulation and lighting should be explosion-resistant.		
Protective Equipment:	should be designed to prevent accumulation	and recirculation in the workplace. N as product may cause an allergenic fety glasses or chemical goggles are	Ventilation equipme reaction. In an indus recommended. Was

## Section 9 – PHYSICAL AND CHEMICAL PROPERTIES

Physical state:	Clear light red liquid spray.
pH:	Not applicable.
Vapour Density:	> 1 (Air =1)
Vapour Pressure, kPa:	300 - 600
Boiling Point, °C:	About 80
Melting Point, °C:	Not applicable.
Specific Gravity:	About 0.7
Flash Point, °C:	< 0 (propellant)
Explosion Limit, % v/v:	LEL 1.0% UEL 7.0%
Autoignition Temp, °C:	> 200
Solubility:	Partially soluble in water.

## Section 10 – STABILITY AND REACTIVITY

Section 11 – TOXICOLOGICAL INFORMATION

Stat	oility:
------	---------

Stable under normal conditions of use. Not reactive. Avoid oxidisers. Avoid elevated temperatures.

Basis for Assessment:	Information given is based on product testing, and/or similar products, and/or components.
Acute Oral Toxicity:	$LD_{50}$ estimated to be> 5,000 mg/kg (based on component mixture, excluding propellant).
Acute Dermal Toxicity:	$LD_{50}$ estimated to be > 2,000 mg/kg (based on component mixture, excluding propellant).
Acute Inhalation Toxicity:	LC <sub>50</sub> estimated to be > 20 mg/L, Rat 4 hour (based on component mixture). Inhalation of vapours may cause drowsiness (narcotic) and dizziness.
Skin Irritation:	Prolonged/repeated contact may cause defatting of the skin and dermatitis. Avoid contact with skin.
Eye Irritation:	Spray is irritating to the eye. Expected to be reversible in 7 - 21 days.

<b>Respiratory Irritation:</b>	Inhalation of vapours or mists may cause irritation to the respiratory system.		
Sensitisation:	Not expected to be a respiratory sensitiser.		
Repeated Dose Toxicity:	Prolonged contact with product may result in irritant contact dermatitis. Avoid skin contact.		
Mutagenicity:	Not expected to be mutagenic.		
Carcinogenicity:	Not expected to be carcinogenic.		
Reproductive toxicity:	Not expected to be toxic.		
Section 12 – ECOTOXICITY	(INFORMATION		
Ecotoxicity:	Ecotoxic in the aquatic environment. No environmental hazard is anticipated with small volumes of product, provided that it is handled and disposed of with due care and attention.		
Mobility:	Not determined.		
Persistence/degradability:	Inherently biodegradable.		
Bioaccumulation Potential:	Bioaccumulation may occur.		
Section 13 – DISPOSAL CO	INSIDERATIONS		
Material Disposal:	Product wastes should be disposed of in accordance with applicable regulations. Do not dispose into the environment, in drains or in water courses.		
	Large quantities should be degassed by an aerosol recycler. Do not dispose of large quantities of pressurised aerosols in landfills. Incineration in an authorised facility is suggested.		
Container Disposal:	Recycle empty container if possible. Product containers are also considered wastes of the same class of the contents and should be disposed of in accordance with applicable regulations.		
Section 14 – TRANSPORT	INFORMATION		
Transport:	Classified as a Dangerous Good for transport purposes.		
	Class 2.1 should not be loaded on the same vehicle as Classes 1, 3 (where both are in bulk), 4, 5, and 7. They may be loaded with Classes 3, 6, 8, 9, foodstuffs and foodstuff empties.		
Proper Shipping Name:	Aerosols		
	1950		
UN Number:	1950		
Dangerous Goods Class:	1950 2.1		
Dangerous Goods Class:	2.1		
Dangerous Goods Class:	2.1 Class 2 Flammable (Land, Sea and Air), EHSM (Sea and Air)		
Dangerous Goods Class: Transport Labels Required:	2.1 Class 2 Flammable (Land, Sea and Air), EHSM (Sea and Air) Land, Sea, Air Sea, Air		
Dangerous Goods Class: Transport Labels Required: Subsidiary Risk:	2.1 Class 2 Flammable (Land, Sea and Air), EHSM (Sea and Air) Land, Sea, Air Sea, Air		
Dangerous Goods Class: Transport Labels Required: Subsidiary Risk: Packing Group:	2.1 Class 2 Flammable (Land, Sea and Air), EHSM (Sea and Air) Land, Sea, Air Sea, Air Not applicable Not applicable		

Inventory Listing         NZIOC (New Zealand Inventory of Chemicals); All components of this product are listed.           SD5 regulations         This Safety Data Sheet was prepared in accordance with the EPA Hazardous Substances (Safety Data Sheets) Notice July 2017.           EPA Approval Number:         HSR002315 Aerosols (Flammable) Group Standard 2020.           EPA Hano Controls:         Refer to www.epa.govt.ng for information on Controls. This substance is to be managed using the conditions specified in an applicable Group Standard.           Section 16 - OTHER INFORMATION         Personal Protective Equipment Guidelines: The recommendation for protective equipment contained is provided as a guide only. Factors such as method of application, working environment, quantity used, provided as a guide only. Factors such as method of application, working environment, quantity used, orduct concentration and the availability of engineering controls should be considered before final selection of personal protective equipment used and method of application. Given that it is impractical to prepare a report which would encompas all possible scenarios, It is anticipated that users will assess the risks and apply control methods where appropriate. This SDS summarises our best knowledge of the health and safety hazard information. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. Since we cannot control the conditions under which the product may be used, each user must review this SDS in the context of how the user intends to use the product.
