

# WASP - WELD ANTI SPATTER

## TECHNICAL DATA SHEET | 7735

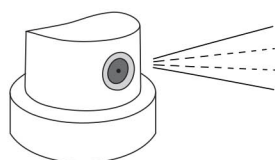

### CHEMZ - WASP Weld Anti Splatter Stops weld spatter on metal surfaces

- Suitable for MIG, TIG, stick and electronic welding
- Prevents spatter build-up that can restrict gas flow and affect weld quality
- Reduces clean-up time, effort and post-weld finishing
- Increases welding efficiency and productivity
- Prolongs nozzle life by minimising blockages and wear
- Non-flammable and economical to use

Safety Data Sheet

#### Wide Top Conical Spray

**Chemz WASP** is a high-performance welding spatter release spray designed for use on mild steel, stainless steel, aluminium and high-performance alloys. It forms a clean, protective anti-adherent film that allows welding spatter to be removed quickly and easily, helping maintain a stable welding arc and consistent weld quality.

The silicone-free formula delivers long-lasting protection and leaves a residue that can be easily removed using Chemz Rapid Brake Cleaner (7856) or Chemz Z7 Brakeclean (7816), making it a reliable and efficient addition to any welding setup.

### CHEMZ WASP

**CODE :** 7735

**SIZE :** 500ml/ 600gm

**PROPELLANT:** CARBON DIOXIDE

**CONTAINS:** Dichloromethane > 60%

MPI APPROVED C12 (All animal products except dairy)

**APPLICATIONS:**

**PRECAUTIONS:** Read label before use. Keep out of reach of children. Wash hands thoroughly after handling. Gloves and eye protection are recommended. Avoid breathing vapours/spray. Use only in a well-ventilated area. In confined areas, use a respirator. Do not eat, drink or smoke when using this product.

**INDUSTRIAL & MANUFACTURING** - Prevents spatter on welding robots, fixtures, jigs

**TRANSPORT & LOGISTICS** - Protects torches, nozzles, diffusers in vehicle fabrication

**CONSTRUCTION & MINING** - Reduces spatter on structural steel and machinery

**DIRECTIONS:** Spray **CHEMZ WASP** onto the area to be treated evenly, holding the can approximately 30cm from the surface. Wipe surface with a clean cloth to remove **CHEMZ WASP** before painting.

**RURAL & AGRICULTURAL** - Maintains clean welds on farm equipment

**MARINE & FISHING** - Prevents spatter on stainless steel, aluminium, mild steel

Colour	Clear, almost colourless
Odour	Sharp, penetrating ether-like odour
Solubility	Not soluble in water
Specific Gravity	About 1.25
Evaporation	Evaporates to leave an oily film
Vapour Ignition Temperature	556 °C
Vapour Density	2.93 (Heavier than air)
Flashpoint, °C	Would not flash
Propellant	Carbon Dioxide
