

CHEMZ M18 Soft Shield

Part No. 7784 (400ml)

Wax based corrosion protection for metal surfaces

- Contains a natural lanolin extract
- Protects against rust and corrosion
- Leaves light amber film
- Easy to remove with Chemz solvent cleaners

Chemz **Soft Shield M18** provides an effective long term outdoor (up to 18 months), and indoor (up to 5 years) anti-corrosion protection for all kinds of metals and alloys.

Chemz **Soft Shield M18** leaves a dry and light amber transparent film 3 - 5 mils which does not stain, become brittle or craze.

Chemz **Soft Shield M18** leaves a dry waxy coating on machined surfaces, assemblies and equipment exposed to the elements.

Chemz **Soft Shield M18** is a heat resistant film and is highly resistant to salt water and corrosive atmospheric elements and seals out moisture and corrosive contaminants.

Chemz **Soft Shield M18** offers a more economical coating than strippable or plastic coatings.

Technical Data

Colour	Light amber
Dry to Touch Time	12 hours
Corrosion Protection (Salt Spray)	Up to 500 hours
Coverage	Up to 6 m ²
Re-Application Period, Indoors	5 Years
Re-Application Period, Outdoors	18 months
Specific Gravity, 20°C	0.86
Flash Point, °C	< 0
Propellant	Hydrocarbon
Temperature Range, °C	-10 to +100
Clean Up	Chemz Rapid Brake Cleaner or Engine Degreaser

MPI Approved C12 (All animal products except dairy)
